SDET specializing in automation, AI-driven quality engineering, and scalable test solutions across UI, API, backend, and conversational AI workflows. Hands-on with Java, Python, Selenium, Playwright, REST Assured, CI/CD, GenAI, prompt engineering, and AI-assisted testing.

WORK EXPERIENCE

Software Development Engineer in Test · Adobe (via TEKsystems) · Noida, UP `Jan 2026 – Present`

- Designed, developed and maintained 100+ functional, regression, and API test scenarios using Java, Selenium, Playwright, Gherkin, Cucumber BDD, and REST Assured for Adobe Experience League, cutting manual regression effort by 30%.
- Built end-to-end automation for Adobe's AI-powered conversational Chatbot feature by simulating customer interactions and automating response validation, enabling scalable testing of AI-driven conversational workflows.
- Built self-healing locator recovery (similarity scoring, context-aware detection, Gemini AI fallback) into the existing automation framework, cutting maintenance effort by 25%.
- Integrated Model Context Protocol (MCP) with Playwright to enable AI-assisted browser automation and test execution, improving interaction with testing tools and application context.

Software Engineer · S&P Global · Noida, UP `Oct 2024 – Oct 2025`

- Designed and executed 400+ functional, integration, regression, and UAT test scenarios across automated and manual testing for the KY3P platform, aligned with sprint deliverables and reducing regression cycle time by 40%.
- Built reusable automation components and parallel execution capabilities, improving framework scalability and cutting full suite run time by 35%.
- Validated REST APIs, backend services, and database workflows using REST Assured, Postman, Oracle SQL, and MySQL.
- Managed defect lifecycle in Jira and Azure DevOps, performed root cause analysis, collaborated with developers on defect resolution, and supported UAT activities across sprint releases.

PROJECTS

ChatOps AI-Powered CI/CD Automation Platform

- Built a serverless ChatOps platform enabling QA engineers to trigger, monitor, and analyze automated test executions directly from Slack without Jenkins access.
- Integrated Gemini AI for automated execution log analysis, failure classification, and remediation suggestions.
- Designed execution orchestration and report distribution workflows using AWS Lambda, API Gateway, and S3.

Self-Healing Test Automation Framework

- Built a hybrid BDD automation framework with a multi-layer healing architecture combining persistent cache, deterministic recovery, and Gemini AI-assisted locator healing.
- Designed a context-aware scoring engine for automatic locator recovery using similarity matching and confidence validation.
- Integrated healing analytics, reporting, Jenkins CI/CD, and Dockerized execution for improved observability and maintainability.

AutoTestMate - GenAI Test Case Generator

- GenAI-powered QA platform converting business requirements into structured functional, negative, and edge-case test scenarios - reduced manual test planning effort by 70%
- Integrated Gemini, Groq, and Ollama with prompt engineering and multi-format export capabilities for AI-assisted test case generation and management.

TECHNICAL SKILLS

Languages: Java, Python, Bash, SQL (Oracle, MySQL), OOPs, DSA
Automation: Selenium WebDriver, Cucumber BDD, REST Assured, Playwright, JUnit, JMeter, TestNG
AI / GenAI: Generative AI, LLM Evaluation, Prompt Engineering, AI-assisted Testing, Gemini, Amazon Bedrock, Ollama, Groq, RAG
Cloud & DevOps: AWS (Lambda, S3, EC2, Secrets Manager), Jenkins, CI/CD, Docker
QA Practices: SDLC, STLC, Shift Left Testing, Integration Testing, Regression Testing, UAT, Defect Lifecycle, RCA, Agile / SAFe
Tools: Maven, Git, GitHub, Jira, Azure DevOps, Postman, qTest, Allure, Apache POI

EDUCATION

B.Tech – Computer Science & Engineering (78%) · Dr. A. P. J. Abdul Kalam Technical University, Lucknow **2020 – 2024**

CERTIFICATION

Microsoft Certified: Azure Fundamentals (AZ-900) | Microsoft Certified: Power Platform Fundamentals (PL-900) | AWS Academy Cloud Foundations | S&P Global - Agile Foundations & SAFe Overview
